

## TENNIS ACTIVATORS

The Tennis Activator course is a half-day workshop where participants learn basic tennis organisation and delivery skills to confidently run a session in a community setting.

It is open to anyone with no pre-qualifications necessary. The Tennis Activator concept was developed as a low cost, easily accessible, and fun training programme to help more people play and enjoy tennis. Since its roll out, the course has helped fill a gap by training a workforce that can take the sport to new communities and audiences from a wide range of backgrounds.

**OPEN  
TO ALL!**  
*No qualifications  
necessary*

FOUNDATION

# Introducing **TENNIS** *to your* COMMUNITIES

The Tennis Foundation is Great Britain's leading tennis charity and our vision is to build a sport which is inclusive and accessible to every kind of community.

After a long history of supporting tennis opportunities for disabled people and across the education sector, we are developing programmes in communities where there is no current tennis provision. It's our goal over the next two years and beyond to establish hubs of tennis activity in under-resourced communities, who may never have had opportunities to enjoy or play the sport before.

FOUNDATION

## The good news is **YOU DON'T NEED A TENNIS COURT!**

Tennis is now being played in community centres, leisure halls, MUGAs (Multi Use Games Areas) and in faith venues. Our package of support will allow you to deliver tennis on your terms, in your venue with your people. We need your support to help break down some of the common perceptions surrounding the sport. We know through our experience that tennis can flourish in your communities. With the right support, the game can be played by boys and girls of all ages and abilities.

With a commitment to delivering regular tennis activity and an agreement to monitor and evaluate the programme, we can offer a package of support appropriate to your venues and community needs. Consisting of training a local workforce via the Tennis Activator programme (see overleaf), providing equipment (PopUp Mini Tennis Court, net, rackets, soft balls, etc.) and resource materials.

In order to increase the sport's profile and ensure the longer term sustainability of community tennis programmes, we can provide a semi-permanent court surface. The PopUp Mini Tennis Court designed by PopUpArena, is a proven court surface that has the flexibility to be moved easily and offers a bright, colourful playing space (it comes in multiple sizes to suit all venues).
